

DASSAULT SYSTÈMES® INSTRUCTOR-LED TRAINING

TRAINING IS ONE OF THE MOST IMPORTANT INVESTMENTS A COMPANY CAN MAKE. IT HELPS PROFESSIONALS DESIGN BETTER PRODUCTS, COLLABORATE MORE EFFECTIVELY, WORK FASTER AND BE MORE INNOVATIVE.

Our certified Dassault Systèmes instructors have thousands of hours of teaching experience to ensure you're trained right the first time. From basic courses to advanced topics and industry-specific training, Tata Technologies has the resources and technical know-how to ensure you get the most out of your investment.

We offer flexible training options to meet the needs of our clients. For open enrollment, onsite and remote training, students receive a certificate of completion and 12-month access to the course material.

OPEN ENROLLMENT (CLASSROOM)

Each month we offer public sessions of our most popular Dassault Systèmes courses. Open enrollment classes take place at a Tata Technologies training center equipped with all hardware, licensing and courseware needed for use in class.

ONSITE (CLIENT LOCATION)

Tata Technologies offers private onsite training sessions delivered at your location. We can teach one of our out-of-the-box courses, or develop a custom curriculum that meets the specific needs of your organization. Rental hardware/licensing can be provided if needed.

REMOTE (ILD/L/DISTANCE LEARNING)

For the utmost in flexibility with no travel required, choose our remote option and join a scheduled training session via webinar. The Tata Technologies education team can help determine the most efficient and cost-effective delivery model based on your requirements.

ON-THE-JOB (MENTORING)

For training needs that fall outside the standard scope of instructor-led courses, Tata Technologies offers on-the-job training (OJT) or at-elbow support. OJT provides you with an onsite instructor during standard production hours. We work side by side with your end users, coaching them on application functionality and best practices.

CATIA® V5 COURSES

CATIA V5 Foundations	5 days	\$1,850
CATIA V5 Assembly	3 days	\$1,210
CATIA V5 Drafting	2 days	\$815
CATIA V5 Surfacing	5 days	\$1,850
CATIA V5 Advanced Part Design	3 days	\$1,500
CATIA V5 DMU Kinematics	2 days	\$1,100
CATIA V5 DMU Navigate	1 day	\$700
CATIA V5 Freestyle	5 days	\$2,000
CATIA V5 Functional Tolerancing & Annotations	2 days	\$1,100
CATIA V5 Generative Assembly Structural Analysis	2 days	\$1,250
CATIA V5 Generative Part Structural Analysis	2 days	\$1,250
CATIA V5 Installation & Administration	3 days	\$1,500
CATIA V5 Manufacturing	5 days	\$2,000
CATIA V5 Sheet Metal	2 days	\$1,100
CATIA V5 Skeleton Modeling	5 days	\$2,000
CATIA V5 Templating/Methods	5 days	\$2,000

CATIA V6 COURSES

CATIA V6 Foundations	5 days	\$2,000
CATIA V6 Assembly	3 days	\$1,500
CATIA V6 Drafting	2 days	\$1,100
CATIA V6 Surfacing	5 days	\$2,000
CATIA V6 Advanced Part Design	2 days	\$1,100
CATIA V6 Freestyle	2 days	\$1,100
CATIA V6 Sheet Metal	2 days	\$1,100

ENOVIA® COURSES

Gateway to the 3DEXPERIENCE® Platform	4 hours	\$400
Transition to the 3DEXPERIENCE Platform for CATIA Designers	2 days	\$1,100
ENOVIA Collaboration and Approvals Essentials	1 day	\$700
ENOVIA Project Management Fundamentals	1 day	\$700
ENOVIA Project Management Advanced	1 day	\$700
ENOVIA Project Execution Essentials	1 day	\$700
ENOVIA Engineering BOM Management Essentials	1 day	\$700
ENOVIA Traceable Requirements Management Essentials	2 days	\$1,100
ENOVIA Collaborative Lifecycle Management Essentials	4 hours	\$400

SIMULIA® COURSES

Introduction to Abaqus	5 days	\$2,000
Introduction to Tosca	2 days	\$1,100
Introduction to fe-safe	2 days	\$1,100
Introduction to ISight	2 days	\$1,100
CATIA Non-Linear Structural and Thermal Workbench	2 days	\$1,100

TAKE ADVANTAGE OF OUR MULTI-STUDENT DISCOUNT!

Receive a discount when two or more students take the same course at the same location and time.

- Two students – 10% off
- Three students – 15% off
- Four or more – 20% off

The discount applies to the enrollment cost for each student.

ABOUT TATA TECHNOLOGIES

Tata Technologies makes product development dreams a reality by designing, engineering and validating the products of tomorrow for the world's leading manufacturers. Our clients are under increasing pressure to create more products, faster than before, and better than ever to stay competitive. For more than 20 years, we have empowered them with the tools, technology, and processes to meet – and exceed – market demands.
