### **TATA TECHNOLOGIES LIMITED**

**This is a controlled document. Unauthorized access, copying and replication are prohibited.**

**This document must not be copied in whole or in parts by any means, without the written Authorization of the CEO, Tata Technologies Limited.**

**Tata Technologies Limited (TTL) Biodiversity Commitment:**

As a company, we are committed to preserving the biodiversity in our operational locations. TTLs biodiversity commitment includes flora, fauna, and animal life.

The following are the guidelines which would enable us to do that:

- Conduct biodiversity including wild and animal life assessments in prospective locations. The assessments shall be the foundation to create location specific biodiversity plans.
- Select properties (leased or owned) which shall not impact the natural habitat or biodiversity areas in the operational locations.
- Protect the conservation of native flora, fauna, and animal life in our facilities and surrounding communities.
- Partner with like-minded organizations to conserve the local species in and around the communities we operate in.
- Pursue and develop technologies that shall reduce negative impacts on biodiversity.

Date:

Warren Harris

CEO and MD
